PASSENGER, named CHAN WAN. lately took passage from Calcutta by the Steamer "LIGHT'NING" bound for this Port. After embarking on the Steamer in mestion he became so seriously ill tout he departed this life during the voyage. Through the kindness of the Captain of the Steamer, the body, instead of being thrown into the sea, was put in a coffin and conveyed to this Port. The Captain also exerted himself to make all arrangements for the deceased and reported the matter to the Local Harbour Master. His brother desires with the deepest gratitude to thank the captain for his kindness. CHAN HUNG SHEK.

CITY ANALYST'S LABORATORY. 138, BATH STREET, GLASGOW 13th March, 1891. FIRST QUARTERLY REPORT FOR 1891 ON ROBERT BROWN'S FOUR CROWN" BLEND OF SCOTCH WHISKY, I have made a minute and careful chemical analysis of a fair sample of several hundred casks

of Robert Brown's "Four Crown" Blend of Scotch Whisky, taken by myself from the bonded stores in which the casks are lying, and the result of my analysis indicates that it is a pure Whisky, which has been matured for a considerable period in Sherry Casks, and from its mild and agreeable flavour I am of opinion that it is a very fine blend of Scotch Whisky.

> The Attorney-General-My Lords, I desire on behalf of the Bar to express the deep sorro with which we heard the very sad news which appears in this morning's paper. Most of us here not only knew Sir James Russell as a Judge but we knew him as a personal friend. After an intimate connection with this Colony extending over a quarter of a century he had endear ed himself to all of us, by his assiduity, his manly straightforwardness, and his goodness to all. We had hoped and expected that the pension with the had earned, and well earned, would have been a source of satisfaction to him, and would have enabled him to have some comfort and rest after so hard-working a career here. It seems, however, that that was not to be. The first time, my Lord, that I saw Sir James Russell was on that Bench now occupied by your Lordship. Speaking of him as a Judge is to speak of him as a man who was known by all to be most painstaking, most patient, and most courteons and kind to a degree to all who practised in this Court, and to all who came before him. My Lords, the loss is a very sad one. It goes home to our hearts. Ho has gone, but he has left behind him a memory which will not be forgotten. We shall recollect Sir James Russell, and he will be embalmed in our memory as a man whom we loved. I have nothing more to add, my Lords, except to ask on behalf of the Bar that, as a mark of respect, you would adjourn the Court. I feel that the businose perhaps would not be done so well to-day. THE MORPHINE ORDINANCE. TO THE EDITOR OF THE "DAILY PRESS. Sin,-I have read the article in your issue of he let instant and am obliged to you for pointing out the impracticability of applying the proisions of this Ordinance to chemists. Qualified chemists (whose standard of pharmacentical education is as high relatively as that of the surgeon for the practice of surgery, or of the physician for the practice of medicine have been associated with ignorant coolies and the keepers of dens for the administration of

morphine injection, in such a manner as to lead them to suppose that it was the intention of the Government not only to wrong them, but to insult them into the bargain. The Attorney-General on introducing the Ordinance attached much weight to the circumstance that it would be seconded and approved by Or. But as to the medical knowledge new professional man will bear me out in saving the it has to be acquired in the case of doctors and barristers especially after they have passed their examinations, and a qualified medical man who did not practice his calling after passing would rapidly lose all student or preliminary knowledge, and have no opportunity of somiring any more. I would rather consult an intelligent quack with experience then a qualified man without it. His saling the necessity a measure of this kind on such grounds does not therefore amount to much. refuse to believe that "he specially presents the Chinese "and I do not for one moment think that he would be elected to represent them by themselves. He was appointed by the Government, and no person so appointed represents in any sense any large section of the people of this colony. But Dr. Ho Kai would nevertheless be a most useful member of the Lagislative Council if he possessed a fair knowledge of the habits and views of the Chinese Does he possess such knowledge? TO THE EDITOR OF THE "DAILY PRESS." Sig.—In my previous letters I have stated the objectious to the passing of the above Ordinance from the standpoint of chemists in con-

nection with their status at home. I would now point out to you that (notwithstanding that the Government has had the assistance of Dr. Ho Kai, who possesses medical knowledge as well as legal knowledge) the most important factor in the question of the necessity for preventing ignorant and unqualified persons from using bypodermic syringes for the injection of a solution of morphine upon others. or in providing the means for enabling ignoranpeople to do so for themselves in dens for the purpose, does not appear to have been brought to its notice—the principal, if not the only grave reason for repressing such places by Ordinance. Dr. Ho Kai should have brought to the notice fithe Government "if he had all his senses open. and with his medical knowledge too, the circumstance that one of these syringes being inserted into the body of a leper or person suff-ring from one of the dreadful diseases common all over the East, and which syringe afterwards inserted without being properly cleansed, would most assuredly convey by inoculation to the ner omer the disease with which his predecessor blood was poisoned.—vour obedient servant. JNO. D. HUMPHREYS.

Hongkong, 4th September, 1893. THE PEAK CHURCH. TO THE EDITOR OF THE "DAILY PRESS." Str.—Now that the attendances at the services held at the Peak Church are becoming very full, the little building being sometimes growded to its utmost capacity, it is time some notice was taken by the Public Works Depart ment of the condition of the road leading down to it, which at present resembles the bed of a torrent. The concrete is broken up, and the loose rough stones make it positively dangerous for the coolies corrying the worshippers to the compound. It is possible that the rad is pri vate property: if so the P. W. D. might still repair the road and charge the cost to the Pouk residents, though I think it might well come out of the rates as the amount would be trivial. -

AN INTERVIEW WITH MR. J. J. LYQNS.

Mr. Lyons was in a talkative mood, and so let him yarn, and contented myself with drinking in his words of wisdom. " Now let me start at the very beginning," said the Australian, refl atively, "when did I begin to play cricket? The experiments are far more interesting in a mistake being made that might easily affect I recollect that, in one Juniors' match. I made ' four,' and an 'eight.' You see, in those matches scoring is the rule rather than the exception in Australia, is it not?" "Ob, yes, the wicket is always -or nearly always -a very fast one. When an Australian wicket's bad, it's very bad, There isn't much 'medium' about wickets out there, as we go in for extremes, or nothing Many people, now, are under the improssion that we generally play on commant matting in Australia, like they do in India. Now this is a great mistake. It is very seldom that a 'big' match is played on the matting. Small ones may be. now and then, but turf is the stuff for first-class cricket, and when you Englishmen come to Kangaroo-land, you are given a nice hard bit of turf to be threshed on. Talking about the visits of your teams to Australia reminds me that oricket out there has looked up wonderful ly since the International ' Test' Match & -two out of three of which, you will remamber, Australia won. These victories served to popularie the game grandly. Somehow, oricked was beginning to lose its hold on public farour. I think. -From " Chunt" for August.

THE CHINESE SIX COMPANIES OF SAN FRANCISCO.

When the Act of May, 1892, known as the Geary Act, was passed, the Chinese Societies. commonly called the Six Companies, at once made strengous efforts to render it inoperative. As is well known they sent their emissaries through the length and breadth of the land proclaiming to the ignorant Chinese labourers that the emotment was in contravention of treaty stipulations, and that they intendad to prove its illegality in the Courts of the United States. They raised a large sum of money-\$200,003, it is estimated-for that purposa, by calling for pecuniary aid, or rather imposing a forcal contribution of one dollar per head upon coolies and labourers, while the merchants and other classes subscribed sums varying from that amount up to twonly dollars. They counselled non-compliance with the law and held out confident promises of immunity i case of failure to register. Buch is the power of these Companies that their suggestions or instructions were so well carried out that of the 110,000 Chinese resident in the United States, little over ten per centum took out certificates of registration.

When the Supreme Court of the United States, on May 15th last, declared the Geary Ex Insion et to be constitutional, there was no little excitoment in this city among the misguided Chinamen, and as soon as their eyes were opened to the evil counsel which they had followed, their anger was great: But of this wo will speak later, preluding remarks on the effect of the disappointment of the Chinese community by a brief history of the Six Companies, with
